

- **Free pizza & pop!**
- **Kids' room & activities**
- **Raffle with fun prizes!**

Did you know...

- ... that you live in a watershed, an area of land that drains into a common body of water, even if you don't see water nearby?
- ... that the eastern half of Oakland County and areas of western Macomb County drain into the Red Run watershed, eventually draining into the Clinton River and out to Lake St. Clair?
- ... that stormwater is a leading cause of water pollution and can affect activities you enjoy such as swimming, boating, and fishing?
- ... that community leaders in your area are taking action to improve water quality and need your input?

Red Run Watershed

OURS TO PROTECT
